11 + 12

1. Comment. Possibly, troop shipments.2. Comment. Probably, troop shipments.

50X1-HUM

3. Comment. The trains from Chemnitz to various receiving stations and from there to Koenigsbraeck vaguely confirm an unidentified unit of the 6th Gds AAA Div

50X1-HUM

50X1-HUM

4. Comment. These trains presumably were air force shipments, as air force installations are located at all towns mentioned.5. Comment. Both shipments are reported for the first time. They probably carried elements of the 220th Hv Tank SP Regt which were to go to the Ohrdruf and Letzling Heath troop training grounds for field exercises.

50X1-HUM

SECRET/CONTROL - U.S. OFFICIALS ONLY

SECRET/CONTROL - U.S. OFFICIALS ONLY

- 12 -

6. [] Comment. The train is believed to have carried elements of the 9th Tank Div. Roederau is the unloading station for the Zeithain troop training grounds. 50X1-HUM
7. [] Comment. [] an unidentified ground unit of the Luftwaffe in Falkensee. 50X1-HUM
8. [] Comment. Presumably a troop shipment of the 39th Gds Mtz Rifle Div 50X1-HUM
9. [] Comment. [] confirms the 45th Gds Tank Regt of the 11th Gds Tank Div until 22 September 1952. The regiment was at its Kamenz post until the summer of 1952. The departure from Oschatz on 17 and 18 September lead to the conclusion that the regiment participated in a field exercise in the Oschatz area from the Koenigsbrueck troop training grounds during the first half of September. The receiving stations do not furnish definite indications as to the new military post of the regiment. As however one of the shipments was going to Meissen, there is support for the previously vague assumption that the new garrison of the regiment is Meissen. 50X1-HUM
10. [] Comment. [] presumably belongs to the unidentified engineer battalion of the 9th Tank Div. Therefore, the troop train en route to Koenigsbrueck on 16 September is believed to have carried elements of the battalion. On 2 and 9 September, additional elements of the 9th Tank Div departed from the Zeithain troop training grounds, with some of the elements having been tanks moving to Colbitz in the Letzling Heath. It is believed that components of the 9th Tank Div were shipped from Zeithain to the Koenigsbrueck troop training grounds for joint, final fall maneuvers of elements of the First Gds Mecz Army. 50X1-HUM

50X1-HUM

- 13 -

12. Comment. The 2, 153 carloads, including 481 with undetermined cargo, considerably surpass the volume of supply traffic of the preceding month. This is first of all due to the fact that the present report covers 53 instead of 42 railroad stations in the reference report. Traffic in the supply centers of Chemnitz, Dresden, Meissen, Riesa and Roederau slightly decreased, while the other supply traffic held a normal level.
